Conference With City Of- THE COUNTY OF THE C ficials to Be Held Tuesday -Two Small Lines Have Rail Privilege Now.

Railroad may use the rail deck of the Municipal Bridge appeared today, following a decision at a today, following a ceersion at a conference of city offiicals yestercay to ask the Terminal what plans it may have for utilization of the river crossing. A meeting for this purpose will be held in the Mayor's office Tuesday.

The southern rail approach to

or's office Tuesday.

The southern rail approach to the bridge, built under a \$1,500.000 bond issue item, will be completed in about a week. However, some comparatively minor work must be done on the tracks of the bridge proper, which have stood idle for years. This work will be done before Aug. I, city officials said. The southern approach will largely benefit the Manufacturers' Railway, but the old western approach has a direct connection. ern approach has a direct connec-tion with the Terminal's yards. The Terminal would need new approach

should the Terminal Railroad or any of the trunk lines within its membership decide to use the bridge the volume of traffic and consequently the income to the city would be materially enlarged. The only roads definitely planning use of the structure are the Manufacturers and the Alton & Southern, an East Side switching line which has an eastern approach.

What Miller Says. city's invitation when it is received," said Henry Miller, president of the Terminal. "That investment in the bridge ought to be put to work and as a big taxpayer the Terminal wants it put to work. I don't know whether we will use I don't know whether we will use it—that depends on what the city officials have in their minds. It ought to be used by all the railroads. I imagine the city realizes it hasn't reached a solution. Our attitude is one of obedience to the request for a meeting."

Yesterday's meeting, called at the suggestion of the Mayor, who did not attend, and held behind closed doors, included members of the Board of Public Service, the Municipal Bridge Commission and the Special Bridge Committee of the Board of Aldermen, and City Counselor Muench and Jules R. Counselor Muench and Jules R. Field, the Mayor's secretary. The same group will meet again Tuesday with representatives of the Terminal. It has no proposal to submit to the Terminal but wants

to receive one.

President Kinsey of the Board

Service pointed out today of Public Service pointed out today that the Terminal would have to build an approach or approaches on the Eastern end of the bridge to make use of the crossing. The Terminal in the past has been willing to do so. When it was proposed several years ago to exchange uses of the Municipal and Eads bridges, as between the Terminal and the city, the city claimed this would give the Terminal control of the Municipal Bridge, the only one here with a free vehicle deck, but the Terminal agreed to keep that

Will Revenue Be Sufficient? Proponents of that exchange of uses asserted that the Manufacturers and the Alton & Southern meet the upkeep and carrying charges of the rail deck of the Mu-nicipal Bridge. Interest on the bonds for the southern approach alone costs the city \$67,500 a year.
The Miller administration ordinance fixing charges for use of the bridge by all lines has rates of \$1 for a loaded freight car, 50 cents for an empty, \$2.50 for a locomotive and \$2 for a passenger car. There is little if any passenger traffic anticipated now.

At the Manufacturers' Railway today it was asserted that 50,000 freight cars would be hauled across the bridge annually by that road, of which about 60 per cent would be loaded and 40 per cent would and that from 1000 to 2000 loco-motive crossings a year made motive crossings a year would be made. That would mean revenue of approximately \$42,500 to \$45,000 a year. In the absence from the city of A. E. Wright, president, Manufacturers' officials were not

Number of Certificates Just Issued Four Times Greater Than in Preceding Six Months. By the Associated Press.

JERUSALEM, June 28 .- The Palestine Government has just issued to the Zionist executive here 2400 immigration certificates for use up to Sept. 30. This is four times as many as were issued in

the preceding six months.
To all intents and purposes the certificates will be used to bring in Jewish workers. For the preced-ing six months only 600 certificates were granted. For the current period 2800 certificates had been applied for by the Zionist execu-tive and the Labor Federation had asked for 4000.

As the holder of a certificate is entitled to bring two relatives or members of his family with him the number of certificates granted would theoretically suffice for an immigration of about 7200. But as the majority of the immigrants are young unmarried people, it is assumed that not more than 3000 Jews will come in on the certifi

PAYMENT TO U.S. Premier, Replying to Fervent Appeal in Chamber of Deputies, Promises to Make Last Effort. the Associated Press. WASHINGTON, June 28. French Ambasabdor Claudel today

began negotiations with the American Government on the instruc-tions from Paris for the unconditional postponement of payment of the \$400,000,000 World War Supplies Debt due August 1. Claudel called at the State De-partment and conferred for 29

minutes with Secretary Stimson The Ambassador, it was learned did not present a note, but discussed with the Secretary of State the question of postponing the due date of the obligation until Dec. 31 as he had been instructed by Premier Poincare. Stimson said before the conference that he did not know at pres-

ent of any manner in which such an obligation could be postponed without congressional action.

Engineers Survey Incomplete So State Will Not Act Before August.

By the Jefferson City Correspond ent of the Post-Dispatch. JEFFERSON CITY, June 28 .-The State Highway Commission probably will not reach a decision on the route for the proposed super highway through St. Louis County until its August meeting as the Highway Department engineers will not complete their investiga-tion of the various routes pro osed until some time in July.

The next regular meeting of the

mmission will be held here July 9. The St. Louis County highway plans will not be taken up at that meeting, because of the status of the engineering investigation, Chief Highway Engineer T. H. Cutler said yesterday, but the engineers expect to have their recommendaons ready for the August meeting, scheduled for Aug. 13.

Cutler said the Highway De-partment planned to let the contract for the Missouri River bridge at Chesterfic'd this fall. The esti-mated cost is \$800,000. If no early decision is reached on the entire route through St. Louis County. the department probably will proceed with the bridge contract award. Cutler said, and build the super highway when the question of route is settled. In the meantime traffic could use the Olive Street road, he said.

He Has to Get Mexican Attache Before Dolores Del Rio Can See Hoover. WASHINGTON, June 28.—Do-

lores Del Rio, Mexican film actress, ran into a diplomatic protocol yesterday when she called at the White House accompanied by her press agent in the hope of meeting President Hoover, but she sur-mounted it in the end.

Miss Del Rio and her mother learned on reaching the White House that under the protocol no foreigners can be presented to the President except by a member of his country's Embassy or Legation. After waiting an hour at the White House the party took a taxicab to the Mexican Legation.

They returned with Don Luis Padilio-Nervo, second secretary of the Embassy, and were officially NORTHERN PACIFIC RY.

Followed Reports of Political Influence in Protecting Breweries, Says Lowman.

the Associated Press.

WASHINGTON, June 28 .- Reports that minor political leaders n the Northern New York prohiition district had told stories of their influence with New York state political leaders to obtain protection for breweries prompted the Treasury investigation which ed to the transfer of Palmer Canfield from his post as Administra-tor at Albany.

This was disclosed yesterday by Assitant Secretary Lowman, who said conditions in the district had Prohibition Commissioner Doran

n commenting on the situation, aid minor changes in the staff of the district probably would follow.

According to the reports to the reasury, the minor politicians in-erested in the sale of illegal beer ould seek out prohibition agents and tell them not to be too severe in their examination of the brewries' products as they were close riends of outstanding politicians who approved of their actions.

As soon as the reports reached the Treasury, special agents were sent into the field and two brewes were seized.

Since then, Lowman said, the inor politicians have ceased their forts to help the sale of illegal action was contemplated ainst the politicians.

STATE SANCTIONS UTILITY SALES AT

Missouri Public Service Commission Rules, However, Increase Can Not Be Used as Basis for Rates.

By the Jefferson City Correspondent of the Post-Dispatch.

JEFFERSON CITY, June 28 .-The Missouri Public Service Commission yesterday authorized the American Utilities Service Co., a Delaware corporation to acquire control of the capital stock of the Lexington Water Co., and the Independence Water Works Co., although holding the price for the stock in each instance was exces-

The Commission ruled that, if the buyer desired to pay an excessive price for the stock, that was the concern of the purchaser, but served notice in the order that "such prices could not and will not be used against the public as a basis for rates to be charged, or

for issuance of securities." The Commission ruled that the approval of the purchase would not in any way be construed as recogni-tion of the purchase price as the value of the property, and that the rates or any security issues, must be based upon the fair value of the property and not the stock pur-

To Purchase 977 Shares. The purchaser had asked for and received authority to purchase 977 of the 1000 outstanding shares of ton Water Co. at \$176.70 a share 4750 shares of common stock of the Independence Water Works at \$124.47 a share, and 671 shares

of preferred stock of the Independence Company at \$100 a share. The commission stated it recent-Lexington Company, and that the valuation showed the equity for the common stock in the property amounted to \$73,773 or \$73.77 a share as compared to the \$176 : share at which the buyer had con tracted to buy this stock. The pur chase price would total \$176,000 for the 1000 shares of common

The book value of the Independ ence Company, the Commission ruled, showed an equity in the property of \$38.58 a share for the mmon stock, whereas the purchaser had contracted to buy it at

Approves Another Sale,

In a similar order, the Commission approved an application of the General Water Works & Electri Corporation of Delaware fo authority to acquire stock control of the Sedalia Water Co., of Sedalia, and the Capital City Water Co. of Jeffesson City, although it declared the purchase price of the stocks was excessive.

The Commission made the same ruling in this order that the purchase price could not be capitalized and would not be considered in any proceeding affecting rates or valua-

The General Water Works & Electric Corporation proposed to pay \$700,000 for the 3000 outstanding shares of common stock of the Jefferson City Company, according stated its investigation, in a recent valuation case, disclosed the equity of the common stock in the prop-erty amounted to \$310,933 or less than one-half of the price to be

The purchaser was authorized to acquire 11,807 of the 11,850 outstanding shares of common stock of the Sedalla company for \$470, The Commission stated a recent aluation of this company showed the common stock equity amounted to only \$131.687

CAULFIELD'S VETO

Governor Says \$60,000 Plan Would Not Aid Tubercular Convicts as Property Is Unsuitable.

By a Jefferson City Correspondent of the Post-Dispatch.

JEFFERSON CITY, June 28 .-Gov. Caulfield yesterday disposed of the last of the 231 bills passed by the 1929 Legislature by vetoing a bill appropriating \$60,000 for the purchase of additional land and a building for tubercular convicts in the penitentiary, because the bill contemplated the purchase of a specific tract and building, and made no provision for equipment or proper hospital facilities.

The Governor pointed out that the bill provided the \$60,000 should be expended in purchase of land and a building and that the building in question was not suited for a place for tubercular patients.

The bill made no provision for the necessary repairs and alterations and no provision for equipment or necessary additional con-

20 Bills Vetoed. The Governor signed 211 of the 231 bills and vetoed 20. The three joint and concurrent resolutions, while passing through his hands, did not require his signature, under the constitution, as they in-volve proposed constitutional amendments. Of the 211 bills igned 121 were House bills, in-

cluding the appropriation acts, and 90 were Senate bills.

The tuberculosis hospital bill, as originally introduced, provided for Horace F. Church, a real estate dealer of Jefferson City, and a 16-acre tract, including a 22-room residence, owned by C. C. Carson of Jefferson City, who holds a broom manufacturing contract with the State penitentiary. A similar bill was introduced in the 1927 legis-

The tracts are just east of the penitentiary and within the limits

In his veto message the Governor said there was no doubt of the need of proper hospital facilities for convicts afflicted with tuberculosis, and that such facilities should be provided as soon as possiple, but that the places to which the bill applied were not desirable.

TO RESUME WORK ON HIGHWAY Hearing for No. 65 Right-of-Way Suits Scheduled.

ST. JOE, Ark., June 28. - That the State Highway Department is determined to resume, work at once on the disputed right-of-way for Highway No. 65 through Mar-shall is indicated by the serving of notices upon defendants last week citing them to appear before Circuit Judge Jesse F. Koone in chambers at Clinton tomorrow to show cause why work should not be resumed across their lands. Attorneys for the department

contend that the law enacted by the last Legislature conferring the right of eminent domain on the highway department, provides that when an action to condemn lands for highway purposes is started. work may be commenced at once and the question of damages settled later at a regular jury term of the court. The defendants cited to appear in the present proceedings are S. A. Lay, John Black-well, Milt Bryan and Max Dampf. To Encourage Young Writers.

If compensation had not then been made adequate, he said, an injunction suit would lie against stablishment of the fuse plug and conversion of the lands between the river and the setback levee into a floodway. As long as he was Judge of this court, he assured the landowners their rights would be fully safeguarded.

Attacked Coolidge's Order. structing the army engineers to pay no more than 66 per cent of as-sessed valuation for flowage rights in individual negotiations was at-tacked by the Drainage District. It pointed out that only \$3,000,000 had been appropriated for all damages in the floodway district, and demanded that the condemnation suits, relating only to the levee right of way be dismissed unless \$15,000,000 were deposited with the court to cover both right of way

"Your figures are somewhat extravagant," said the Court, "as I think \$15,000,000 is more than twice the assessed value of prop-erty in Mississippi County." While the language of the presi-

dential order may have been "un-fortunate," he pointed out, neither the President nor Congress, but the courts alone had the authority to fix land values. He remarked that he realized that none of the landowners in the floodway would be benefited by the project, but that it would benefit millions of persons in the path of the Mississippi floods it was designed to

means of recognizing the presence REYKJAVIK, Iceland, June 28 of mustard gas.

The mustard gas competition -Iceland has no unemployment problem, not because folks here have to work to keep warm, but because Iceland is an undeveloped land of great opportunities. **IONIGHT AT**

The unemployed of Reykjavik totaled eight men on May 1. Six of them were more than 60 years old and in ill health. The other two said they had just left their jobs, and could get better ones. Iceland, with only 100,000 in habitants, could comfortably find accommodation and employment for 900,000, it is estimated. Ever since the United States cut the immigration quotas of Nordic races to the present minimum, poli-ticians and scientists in Scandinavian countries, in their efforts to find suitable places of settlement for their surplus population, have discussed the idea of persuading Iceland to accept yearly contin-gents of emigrants from Denmark, Norway, Sweden and Finland. STATE TO MAKE TEMPORARY FILL OF LOW ROAD STRETCH

NOVINGER, Mo., June 28 .- The nounced that it will make a temporary fill in the low section of State Highway No. 6, one mile east of Novinger, which has been giv-ing considerable trouble this spring and summer. This section is only about 100 yards wide. It separates a part of the road which was raised i paved from the bridge across the Chariton river.

This river is frequently in flood, and particularly in this region, which receives water from drain-age districts above it but is not itself protected by a drainage canal. This section of the road has caused much grief because it requently under water, but pre-ious efforts to raise it have met with the opposition of farmers above it who believe that it will act as a dam and cause more land to be flooded than under the present situation. However, these farmers have agreed to a temporary fill with the promise from the State Highway Department that a trestle or flood bridge will e erected later.

Sunday morning the girls, Lucille Sera and Frances Sexton, were chased by two men, and entered a woods, where they became separated. They wert in opposite directions and were asking for rides of people on state roads when

fficers vere notified.
One of the girls, when found by Sheriff Lige Turner of Saline County, clutched seven cents in her hand and suid it was all she had her girl companion had when they left the orphanage. She said they had caten only a candy bar and light until Sunday night, and she was weak from hunger and exposure. She bore scratches on her arms, face and legs, caused by brush in the woods when she ran from the men.

She was reluctant at first in telling of her experiences, but later told the Sheriff where she lived. She expressed a desire to remain at the Saline County jail, where she was not locked up, but was allowed to help with housework after being bathed and given clean

HREE rousing cheers for Charley Dawes!

Upon a funny pipe he draws. In spite of all his riches. Mid scenes of pomp and cirstance,
He wears his ordinary pants,

Instead of court knee-breeches. And rest assured his pantaloons Will not be Oxford-bag-baloons Around his ankles flopping.

He'll wear plus-fours upon the links. "longies" when with Queens and "Kinks" For dinner he is stopping.

Among the aristocracy, Asserting his democracy, He has a noble bearing; So let the others look askance At Charley's elongated pants While buckled shorts they're wearing.

Giddap!

sion of a chow dog. Why not match heads or tails to see which end they'll get? While not what you'd call a fancy dog fancier, we've always

understood that Frankfurters make the best chow dogs. Atwater Kent Jr. and the Captain of his father's 50-foot yacht were both saved when the boat sank and the coast guard "stood

by.' When the cigarette makers started making invidious suggestions they got in bad with the candy makers. You never get anywhere by knocking another guy's racket.

"Entry Into U. S. Refused to Secretary Stimson's Goat."
Secretary Stimson seems to figure prominently in Who's Zoo in Washington.

Even if Billy Bones, the Secretary's pet goat, succeeds in horning his way in, how do we know but what the next incoming ship will bring a troop of monkeys or a water buffalo or some other ind place behind Al Espinosa and interesting member of the former Governor's menage.

b go with his 76 of yesterday, a Henry to come right out openly Wouldn't it be better for and above board and frankly say just how many more animals he still has coming and load them all on one ship and bring them over instead of trying to sneak

'em in one at a time? We hold no brief for William Hamilton Bones but we feel that if Mr. Stimson feels the need of an official goat he should not be thwarted in his desire.

Something You Should Know About **Matched Sets**

as old as the game itself. Every Pro and every star golfer plays about as perfect a matched set as time, money and his own judgment has indicated as best suited to his golfing needs. Sure you'll find a mongrel iron here or

there. But the bags of winners contain those irons that long years of search have tested for lie, for balance, for "feel" and for weight-they're perfectly matched. In the new Wilson-Western registered sets no great innovation disturbing to your golf equilibrium is offered by the golf club man-ufacturer. What the manufacturer has done is

simply to save the golfer years of time and effort that he spends in assembling and matching a perfect set of irons for himself, so that play with his entire set of iron clubs may be standardized. In Farrell Irons Wilson-Western has produced

the super-clubs of a champion. But they are avail-able at a very modest cost. Finished in mild, stainless steel. Not only easy to play, but their durability will make them treas-ured friends for many years to come

Your local Pro or Sporting Goods Dealer has them for sale. A brief inspection will create an immediate desire for ownership.

## The Terminable Permits Victory

Post Dispatch readers express gratification over Governor Caulfield's veto of the terminable permits bill; Howard Green terms it a "great public victory;" George P. Lischer gives Post-Dispatch credit for arousing community; Irwin Sale thinks Post-Dispatch rendered genuine public service; H. G. Crosby hails our courageous Governor.

To the Editor of the Post-Dispatch. S CORES of times during the past four years (the period of my residence in St. Louis) I have refrained from writing to you to express my admiration of your ourageous, constructive, liberalizing editorials; for I have recognized that your mature intellectuality needed no praise to sustain it. I saw that the vision of your staff was of the type that only men of vast knowledge and deep understanding of human affairs could express. Your continual championing of the cause of the neonle great corporations are silencing their spokesmen is one of the most heartening spectacles in our country, one of which the prople of St. Louis should be justly proud

Once again we owe you a debt of thanks of the terminable permit bill. It is by your vigorous lucid numerous edi torials alone that the public interests have been protected. You have done yourselves, your city and the cause of human liberty high honor by your unselfish service. Ut selfish service because you opposed the expressed wishes of men who pay for advertising, the principal source of revenue

In conclusion, let me add, lest this seem praise of one who allows others to think for him, that I voted for Mr Hoe and am in favor of prohibition. But these differences of opinion and others do not prevent my telling friends and acquaintances when the opportunity arises that St. Louis has a newspaper second to none in the country-the Post-Dispatch. HOWARD GREEN.

To the Editor of the Post-Dispatch.

A so ONE of those change of His Excel-S ONE of these citizens who rejoice lency, Henry S. Caulfield, in vetoing the terminable permit bill, I feel that no small portion of the great public victors goes to your paper in its splendid and patriotic fight for the protection of important rights inherent in the citizenship of the great city of St. Louis.

I feel that it is the function of journalism to take the lead in marshaling pubic sentiment in matters of importance, and it: influence should always be in the cause the preservation of the people's rights. and this is an occasion in which your paper red genuine public service which the people of St. Louis should greatly ap-

preciate, and which I, as one of its citizens, indeed do.

In the face of the strongly organized civic and business pressure which was brought to play, in the public hearing held by our Governor, and taking into considera-tion the little apparent interest that the citizenship at large seemed to take at the time of the said hearing. I am sure that you must feel with me that the action of the Governor was outstanding and a c urageous exemplification of his per-

formance of a public duty.
In conclusion, I congratulate your paper and hope that it will continue as in the past fearlessly to lead in all causes where the public interests are at stake. · IRWIN SALE

To the Editor of the Post-Dispatch. " REFUSING to accede to the demands

I for perpetual franchises, our beloved Governor has demonstrated that he possesses real Presidential timber. The country will take cognizance of its deep significance to the people as soon as 'ts real import manifests itself. All hail to our ourageous Governor. Missouri can well be proud. H. G. GROSBY.

To the Editor of the Post-Dispatch.

T HE writer remarkel to a friend while I leaving City Hall after the hearing before Gov. Caulfield on June 12, that win, lose or draw, the Post-Dispatch should reclive credit for again arousing the comnity over an important matter involving its welfare.

In view of the fact that you refused to follow the somnolent or worse example set by the other newspapers, and took up the side of the public against the private interests, the citizens of this community should not be tardy to bestow upon you

Why cannot the Post-Dispatch now inaugurate a crusade for municipal owner-ship? Surely the successful outcome of the late skirmish with the utility trust raises the hones of those of us who believe that despite a contrary propaganda there exists a genuine desire for municipalization of utilities, and that only with municipalization will the consumer evenually escape the inefficiency, waste and chaos towards which private ownership is GEORGE P. Chairman Gives Details of Commission's Idea for Straighten the Mississippi

ST. LOUIS POST-DISPATCH

sion's idea of river front and park development, including park areas on the Mississippi, Meramec and souri rivers, were discussed by E. J. Russell, chairman of the commission, before the Frisco Men's Club at luncheon at Hote Men's Club at luncheon at Hotel Jefferson yesterday. He sketched an attractive picture of the future. "We hope to straighten the Mississippi between Merchants' Bridge and Chain of Rocks, with the aid of the War Department and the State of Illinois," he said. "That will reclaim approximately 4000 acres of land—almost three times as much as Forest Park—in which we can put an airport second to we can put an airport second to none in this country and the most

accessible one possible for any city n the United States. "We expect to develop the bal-ance of this property as a park and in addition to the usual facilities to have a harbor for smaller boats, a raceway for smaller and a bath-ing beach, also a golf links and everything that goes in a park.

Riverside Drive on South. "On the South Side we plan

two-and-a-half-mile drive, about, all that can be done there.
We hope to extend Third street elevated highway to the proposed park north of Merchants' Bridge, but that cannot be considered a riverside drive because it can't get close enough to the river. The South Side drive can be close below the bluffs, so as not to inbelow the bluffs, so as not to in-terfere with the view from the property there, but high enough. Along this drive there might be one or two new small parks. From Bellerive Park, the southern end of the Kingshighway system, we are planning a widened street through Jefferson Barracks and on down the river as part of the outer park system.

"The outer park system is still very much of a dream but we hope to get 25,000 acres of land outside the city for it. It is our hope that we can acquire most of the Meramec Valley and in that valley have at least one lake of good size, not a pond. We hope to acquire prop-erty along the Missouri also and on down the Mississippi below the

outh of the Missouri.
"It has been thought to include the outer parks in the proposed city bond issue, but we have found a law that has been on the books bout 25 years and copied else-where, enabling the city and the county to combine and present a petition to the Governor asking for creation of a park board. The board would have power to acquire and operate parks and their connections, independently of the bonding power of the city and county (by issuing bonds as a sep-arate district). Circulation of a petition for the board should go

pention for the board should go along simultaneously with the pro-posed city bond issue."

Property Values Considered.

Beginning its river-front improvement studies three years ago by considering the central section, the commission found it necessary to go into property values, Russell related, because the inaccessibility of property downtown east of Fourth street was responsible for the westward shift of values. # New Bread **Builds Sturdy** Children

says ALICE ADAMS PROCTOR

Noted domestic scientist tellsof remarkable dietetic quality in Wonder Bread.

> Your grocer has it. Costs no more.

HERE is a food discovery of major importance for your

It's a delicious bread called Wonder Bread, that science worked two years to perfect.
This is what it offers. First of all,

it represents the most economical way of giving carbohydrates. Carbohydrates are measured in calories, and every loaf of Wonder Bread contains 1139.

Hence, by serving it three times daily you largely avoid "carbohydrate starvation." Which simply means failure to replace with proper foods the tissue burned up at work or play.
Your children benefit remarkably. They play
harder. Work better. Often listlessness goes.

Remember, please, these advantages come to you in a bread considered by domestic scientists the most delicious ever baked. And since it costs no more, you should try it right away.

Cost Us \$6,000,000

Wonder Bread, you will find, is different from any bread you have tried before. We spent two years in its development. It cost us \$6,000,000. Today it is the largest-selling bread in America.

Serve it three times daily, Mother. It's good for your grow-ing children. They'll love its delicious flavor and taste

It is baked by expert bakers working in im-maculate model kitchens. They use only tested ingredients. Specially milled "short patent" flour from the heart of the wheat berry. Double the

usual amount of milk-twice pasteurized. Costly ingredients, yes. But they do give you a vastly better bread. And so we benefit through tremendous extra sales.

Also we employ a unique baking method. "Slo-baking." It brings you greater digestibility. Longer-lasting freshness. When will you order your first loaf? Today? You

owe it to yourself to learn what it offers at once. Only remember to say "Wonder Bread" distinctly. HEYDT BAKERY

This Cut Is Easily Prepared and Is Equally Delicious Hot or Cold.

The markets are featuring fresh pork hams and fresh pork shoulders. When properly cooked both of these products are delicious, almost on a par with chicken.

An attractive way of preparing

a pot roasted pork shoulder is to ok it with pineapple stuffing. Buy a five-pound shoulder of resh pork and have the butcher pone it and prepare it with a

cavity for stuffing.

For the stuffing take one cup grated pineapple, one-half cup grated onion, one-fourth cup butter, one and one-half teaspoor salt and three and one-half cups whole wheat stale bread crumbs. Turn all ingredients on to dry

Sew up both ends and center of houlder; dust lightly with flour and salt; put in cast aluminum or iron kettle, place over fire and sear all over. Add one cup cold water, cover kettle, reduce heat and simmer two and one-half hours. Serve with brown gravy.

# Suds below the water that's what counts

Amazing new soap gives instant downto-the-bottom soapiness. Floods water with active underwater suds that work below the surface where cleaning is really done.

I TERE'S the new soap discovery everybody is talking A wonderful soap in bead form that gives instant suds clear down to the bottom of the pan.

It's Super Suds, the new soap that's won 1/3 of America away from chips and flakes in less than a year. Women have found that no matter how big and frothy top suds are, it's the suds below the water that really do the work. And underwater suds are what Super Suds always gives you.

You can prove this quickly by making the simple soap test below. You can prove it three times a day in your dishpan. Just put in Super Suds, add water. And, like a flash, every tiny bead of soap dissolves into suds that penetrate the water from top to bottom. Only Super Suds can do this for you. Only Super Suds can speed dishwashing in these three important ways.

1. No waiting for suds. No stirring. No coaxing. Super Suds dissolves instantly, completely. Even in water cool enough to keep hands soft and white. Even in hard water. 2. Underwater suds wash faster. Dishes come clean

sooner because there's suds all through the water. 3. No dishwiping necessary. This completely dissolved soap rinses away without leaving a trace of soap film. Just hot rinse. Then drain dry. Dishes will shine and sparkle.

What Super Suds is

Super Suds is made by spraying melted soap from high steel towers. This divides the soap into millions of tiny beads. Four times thinner than any machine-made chip or flake. This is why Super Suds dissolves instantly . . . completely. Why

it gives instant downto-the-bottom soapiness. Use this speedy soap for dishwashing, laundry, all cleaning

Raspberries, in this part of the country, come into market almost immediately following the close of the strawberry season.

So raspberries are now in market. Both varieties, the black and the red, may be found in the fruit departments of all green grocery and chain grocery stores.

While the custom prevails of serving these delicious berries au natural with cream and sugar, as a matter of fact, raspberries make alluring cooked dishes, recipes for several of which will be found below.

### SAY THESE CRITICAL COOKS

THE best cooks aren't easy to satisfy. For their . finer consistency, more velvety than most mayonnaise salads, they have fine rare fruits and vegetables. And the dressing which is to crown these salads, must be the purest that can be blended, with the fullest,

-Anna Boeker

Hellmann's Mayonnaise has won the enthusiastic favor of fine cooks everywhere for its rich, enchanting taste—the taste which comes only from the best eggs, delicate salad oil, pure vinegar, and rare spices.

From these only, Hellmann's is carefully blended, according to a famous old recipe from France. Then, from tireless, hour-long beating, comes that clearer, made in the home.

In six different parts of the country Hellmann's Mayonnaise is made in spotless, shining kitchens and rushed from the nearest one to your grocer. Each jar must be as fresh when it reaches you as the salad upon which you use it, and its luscious smoothness and flavor must-never vary.

Get a jar of Hellmann's Mayonnaise from your grocer today and keep it always ready for salads and sandwiches. The popular family size is 1/2 pint -25%. Other sizes, 31/2 ounce, pint, and quart jars.

> "... I didn't know prepared mayonnaise could be so delicious"

WHEN I used to make my own mayonnaise I always had what I thought were the best ingredients-certainly the best money could buy. Yet, more than once, I've known a meal to be ruined because the salad wasn't fit to serve. I've found that you never take a chance with Hellmann's. It must be made of as fine materials as can be found and it's always fresh and true in flavor. It never disappoints. I didn't know prepared mayonnaise could be so delicious. I've been using it for three years now and I don't know what I'd do without it. It makes the work so much easier."

(c7) FORD—Boadster, 1924; 5 new tires; guar-anteed; cash or terms. 4021 Pleasant.

A recent sport type (rumble seat) roadster that's the last-word for fine performance and beautiful appearance. Iraded in by a prominent business man who only drove it a very short time. He had it offed and greased every 500 miles, so now it's in brand-new condition. The original finish is bright and shiny, the upbelstering is fluxurious, tires practically unused and has a wealth of extra equipment. LURIE MOTOR CAR CO.

When you buy one of the cars selected for this sale, a former owner shares the cost with you. From a practical standpoint-especially in some of the Lincolns-you get the superlative transportation he bought.

Original owners exchanged these cars for new Lincolns because they wanted a newer

model or greater or lesser carrying capacity. These cars have been thoroughly re-"newed" by us. They look and act like new. We assume the responsibility for their condition. You get the prestige, the refinement and superla-

tive comfort and lasting economy of a fine car at a fraction of the original cost.

Past experience has shown us that in this community there are enough men of keen business judgment to justify our policy of re-"newing" fine cars. Each of these cars becomes a good-will-builder for us, as it piles up miles upon miles of motoring pleasure and refinement for the new owner.

Come early-bring your own car. We will accept it in trade. Then drive the car you like. Compare its appearance and performance with that of any new car at the same price. Then-and only then can you appreciate these remarkable

helped paint the beach bungalow, as a celebration of our thirteenth aedding anniversary; this year, alone and unaided, we have just finished painting a table, a rocking phair, five straight-back chairs, a homemade dressing table and metal wash-hand-stand—to say nothing of a bunch of shelves. Furthermore all the things except the table had been painted before, so that we had to soap them and street worn oak stain about three coats of mitis (or inside-curve-of-wave) green. Finally, the chairs had spiraled rounds up their backs, if you get what I mean, and a sort of carved grapevine effect across their tops—awfully good Grand Rapids, in its day, but utter exasperation to a domestic painter.

we got home from the office and painted until dark. We arose at sunrise, fired by artistic enthusius—the sunrise gun, as it were—and painted until we had just time to absorb coffee, eggs and toast and grab the boat for the bay. Now they're all done—that is, we suppose they'll all be dry, eventually (the paint was guaranteed to dry in four hours, evidently a misprint for 48)—and they really look rather nice. And, like many a furniture-painting female, we are convinced that here's another of the hard, stern tasks of men which is a perfect cinch compared to lots of women's jobs.

Who wouldn't rather paint furniture-paint in the december are more elaborate technical secrets—the way to do furniture in two tones of the same color, the mastery of flower-ornamentation, all sorts of clever tricks. Art, to the woman furniture-painter may be long!

Yet another thing which she likes about using the paint brush on chairs and tables is that when each painting job is done, it's DONE—for one season, at least. Men cannot realize how depressing, to a woman with imagination, is the everiasting recurrence of many home chores. AM to be an "innocent bystander"—a guest—at a wedding

You know, Miss de Peyster, how
people will discuss the plans of this

Don't think me unkind, but I am, and aiways have been, so tremendously interested in "what's what" that I should be deeply grateful to you if you will tell me in your column just how, in this year 1929, the wedding processional and recessional should be conducted. (You see, I haven't told you what our friends' plans are!)

GRATEFUL

Would you think me ungracious if I asked you if you would be so kind as to send me an addressed envelope and let me send you sev-

I have made these pamphlets as complete as possible—and they tell about the proces-sional, the recessional, the gifts of the bride to her attendants, the the bride to her attendants, the gifts of the groom to his attendants, the essential difference between a formal and informal wedding, suggestions for invitations and announcements, the dress of the bride, the attire of the groom, and his attendants, the combination menu for the wedding breakfast or luncheon or dinner, the answer to the wedding invitations, and so forth. I enjoyed your letter enormously, and I should so love to have you have these pamphlets.

And I would so hope that you would find these of interest and perhaps of value. So, dear lady, will you send me your address and name? (I never publish a name, you know, and never have published a name in my column, in Make Last Yea Sports-wear Na name? (I never publish a name.

The decision was made by Jantice W. H. Anderson in the case of Wanda Dodge Myera, 16, against the Moss Point school of this city.

Mrs. Meyers was denied antrance to the school to pursue her studies on the grounds that "presence of a married student would be detrimental to the good government and usefulness of the schools, and relations of married persons with other children would make known views of life which should not be known to unmarried persons."

### How to Guide A Little Child By Agnes Lyne

WHEN HE IS SICK

T HE sick child rules the home.
His least wish is anticipated.
His irritability meets with only
the sweetest response from the mother who nurses him with ten-der solicitude. His brothers and sisters are regarded as unfeeling monsters if for one moment they oppose their wishes to his. By his illness he has been freed from every responsibility and from all customary checks on his selfish de-

It is only natural that as he gets better he should resist being stripped of his immunity from criticism and his delightful power over the whole family. He clings to his prerogatives as an invalid while his mother wonders vaguely whether measles or influenza do not in some obscure manner affect a child's character. In no other way can she account for the transfor-mation of her lovable, cheerful lit-

tle boy into the whining, self-centered creature that he is.

She does not realize that while she took such excellent care of his body, she did not care equally well

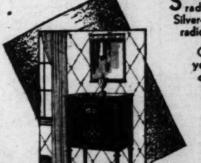

body, she did not care equally well for his personality.

Of course the sick child must be kept as happy as possible in order that he may recover quickly. But he need not be treated as if he were something between a hero and an angel, nor as he convalences, be made to feel that the household revolves around him. As he gets better he must be brought back better he must be brought back to the realization that there are other children in the home, that his mother has other claims upon her time than to be ever ready to hurry to his bedside, that all toys are not his by divine right. Unless this is done tactfully but firmly he may become fixed in the attitude that the way of life is to demand and receive, to pity himself and be

loved in return.

The mother who so lovingly cares for her sick child must be wise in this situation lest she to him an injury which may last long after the patient has been dis
